

## Press Release

### **HCC wins ₹2,917 Cr CIDCO Water Infrastructure Contract in JV**

**Mumbai: April 24 2026:** Hindustan Construction Company Limited (HCC) secured a significant infrastructure contract valued at approximately ₹2,917.6 crore from City and Industrial Development Corporation of Maharashtra Limited (CIDCO) for the construction of a 22.21 km raw water tunnel and a 250 MLD water treatment plant in Raigad. The project has been awarded to the LCESPL–HCC Joint Venture, in which HCC is responsible for executing works worth approximately ₹1,100 crore.

The project involves the design and construction of a 22.21 km long raw water tunnel using Tunnel Boring Machine (TBM) technology, conveying water from Kondhane Dam at Village Chochi in Karjat to a proposed 250 MLD Water Treatment Plant (WTP) at Village Mohope in Panvel.

The scope of work also includes the design, build, supply, erection, testing and commissioning of the water treatment plant, along with 15 years of comprehensive operation and maintenance under a Design, Build and Operate (DBO) contract model.

This project forms a key part of CIDCO's strategy to strengthen long-term water supply infrastructure for the rapidly developing nodes of Navi Mumbai and surrounding areas, ensuring reliable and sustainable water availability for urban and industrial growth in the region.

#### **About HCC:**

HCC is a business group developing and building responsible infrastructure through next practices. With an engineering heritage of nearly 100 years, HCC has executed a majority of India's landmark infrastructure projects, having constructed 26% of India's Hydro Power generation and 60% of India's Nuclear Power generation capacities, over 4,036 lane km of Expressways and Highways, more than 402 km of complex Tunnelling and 403 Bridges. Today, HCC serves the infrastructure sectors of Transportation, Power and Water.
