### HCC JV wins ₹901 Crore Railways contract

**Mumbai: December 19, 2025:** Hindustan Construction Company Limited (HCC) today announced that it has secured a significant infrastructure contract valued at approximately ₹901 crore from the Northeast Frontier Railway (NFR), for the construction of New Tunnel-28 on the Tupul–Imphal new Broad Gauge (BG) railway line. The project has been awarded to the HCC–VCCL Joint Venture (HCC–VCCL JV), in which HCC holds a 65% stake.

The contract entails the construction of a 3.5-kilometre main tunnel, along with comprehensive design, engineering, and commissioning services. The scope of work includes the design and proof-checking of a Broad-Gauge ballast-less track, followed by the supply, installation, testing, and commissioning of all related systems and structures required for railway operations.

The project also covers the design, supply, erection, and commissioning of tunnel ventilation systems, as well as complete electro-mechanical works. In addition, the contract includes the construction of approach roads and other ancillary works necessary for integration with the surrounding infrastructure.

This important project forms part of the ongoing expansion and modernisation of India's railway network.

#### About HCC:

HCC is a business group developing and building responsible infrastructure through next practices. With an engineering heritage of nearly 100 years, HCC has executed a majority of India's landmark infrastructure projects, having constructed 26% of India's Hydro Power generation and 60% of India's Nuclear Power generation capacities, over 4,036 lane km of Expressways and Highways, more than 402 km of complex Tunnelling and 403 Bridges. Today, HCC serves the infrastructure sectors of Transportation, Power and Water.
