

Press Release

HCC in JV wins Rs. 3681 crore order for Bullet Train Station

Mumbai, March 14, 2023: Hindustan Construction Company Ltd. (HCC), in a joint venture with Megha Engineering & Infrastructures Ltd (MEIL), has been awarded a Rs 3,681 crore contract by National High-Speed Rail Corporation Limited (NHSRCL) for the construction of the Bandra Kurla Complex Station of the 508.17 km long Mumbai-Ahmedabad High-Speed Rail.

HCC's entry into building a high-speed bullet train station represents a significant opportunity for the company to expand its portfolio and establish a foothold in the high-speed rail construction industry. This new project allows HCC to leverage its expertise in constructing large-scale infrastructure projects and apply it to a cutting-edge transportation system.

The Bandra Kurla Complex (BKC) Bullet Train Station will have six platforms, and each platform is approximately 414 m, sufficient to accommodate a 16-coach bullet train. The station will have connectivity with the metro and road transport.

This station is the only underground station on the Mumbai-Ahmedabad High-Speed Rail corridor, and it is planned at a depth of about 24 m below the ground level. The station will have a total of three floors. The station will be developed over a cumulative floor area of approximately **2,00,000 Sqm** and will house "state of the art" amenities including waiting areas, a business-class lounge, a nursery, restrooms, smoking rooms, and information kiosks.

The BKC Bullet train station has been planned in a way that ample space is available for passenger movement and amenities at the concourse and platform level. Dedicated skylight provisions have also been made for natural lighting.

The contract also includes building a retrieval shaft on the eastern end for the removal of the tunnel boring machine (TBM), architectural finishing, all MEP works, and testing and commissioning.

About HCC:

HCC is a business group of global scale developing and building responsible infrastructure through next practices. With an engineering heritage of nearly 100 years, HCC has executed a majority of India's landmark infrastructure projects, having constructed 26% of India's Hydro Power generation and 60% of India's Nuclear Power generation capacities, over 4,036 lane km of Expressways and Highways, more than 360 km of complex Tunnelling and 395 Bridges. Today, HCC Ltd. serves the infrastructure sectors of Transportation, Power and Water. The HCC Group, with a group turnover of ₹10,669 crore, comprises of HCC Ltd., HCC Infrastructure Co. Ltd., and Steiner AG in Switzerland.
